PROFILE

Full Stack Developer with 3+ years of experience at Esosphaera, where I designed and built from scratch an AI-driven conversational runtime on microservices architecture, reducing API response times by 40% and overall application performance by 35%. Specialised in PHP (Yii2, Laravel), TypeScript, Vue 3 and Node.js, with a strong focus on code quality, scalable architectures and AI-assisted development. Looking for an ambitious technical environment where I can bring solid full stack expertise and a results-driven problem-solving approach. Open to relocation in Italy and abroad.

EXPERIENCE

Full Stack Developer | **Esosphaera · Resana, Treviso** | Nov 2022 – Present

Covisian Group company specialised in AI solutions for Customer Experience · tech department of ~20 people, direct dev team of 4–5

- Designed and built from scratch an AI-driven conversational runtime based on Finite State Machines (XState v5) in microservices architecture, including snapshot persistence on Redis and a 3-hash memory model with deterministic priority
- Implemented RESTful microservices with Node.js and Express, reducing API response times by 40%
- Optimised PostgreSQL queries, improving application performance by 35%
- Developed an advanced wizard for configuring omnichannel marketing campaigns (Email, SMS, WhatsApp, Phone) using Vue 3 + Yii2
- Integrated external APIs (WhatsApp Business, SMS gateway, Email) and developed custom nodes in FlowDesigner for contact process automation
- Implemented JWT authentication and role-based authorisation systems
- API documentation and testing with Swagger and PHPUnit; cross-team collaboration with designers and PMs in Agile methodology

Back-end Developer | **Previnet S.p.A. · Treviso** | Jul 2022 – Sep 2022

Administrative and IT outsourcing company for pension funds, insurance and financial markets · collaboration with QA and operations teams

- Development and refactoring of legacy Perl applications to improve code robustness and readability
- MySQL database optimisation and design of modular, reusable components
- Collaboration with QA and operations teams for production deployment and monitoring

TECHNICAL SKILLS

Back-end	PHP (Yii2, Laravel), Node.js, TypeScript, Perl
Front-end	Vue 3, JavaScript (ES6+), HTML5, CSS3
Database	PostgreSQL, MySQL, Redis, Sybase
Testing	PHPUnit, Jest
API & Cloud	REST API, Swagger / OpenAPI, AWS S3
Dev Tools	Git, GitHub, GitLab, Jira
AI Tools	Claude AI, OpenAI Codex — AI-assisted development
Methodologies	Agile / Scrum, code review, pair programming

SOFT SKILLS

Communication Clear and direct in cross-team contexts with designers, PMs and stakeholders

Autonomy	Comfortable making independent technical decisions on end-to-end features
Problem solving	Results-driven mindset: I identify the problem, propose the solution and deliver it
Adaptability	Comfortable in both fast-paced startup environments and structured teams with defined processes
Fast learner	Quick to adopt new technologies: shipped XState v5 and AI-driven architectures in production

KEY PROJECTS

Flow Engine — AI Conversational Runtime

Node.js · TypeScript · XState v5 · Redis · PostgreSQL · REST API

- AI-driven conversational runtime using Finite State Machines to manage complex dialogue flows in production
- Dynamic Flow JSON FSM compilation, snapshot persistence on Redis and versioned runtime APIs
- 3-hash memory model with deterministic priority for conversational context management

Multichannel Configuration Module

Vue 3 · Yii2 · PHP · MySQL · REST API

- Advanced wizard for configuring omnichannel campaigns (Email, SMS, WhatsApp, Phone) with dynamic validations
- Frontend performance tuning and UX optimisation for complex configuration flows
- Third-party API integration and multi-provider management

CERTIFICATIONS

Web Security with OWASP Top 10 · SecureFlag · Aug 2025

Secure SDLC Essentials · SecureFlag · May 2025

EDUCATION

Full Stack Web Developer Certificate · Oct – Dec 2021

Professional Training Institute

Technical Diploma · Sep 2012 – Jun 2018

Istituto Remondini

LANGUAGES

Italian	Native speaker
English	B2 level — IELTS
